Monitair IonBoxx

Monitair is a leading provider of Indoor Air Quality solutions. Our Bipolar Ionization devices, IAQ sensors, and real-time monitoring software help buildings become more efficient in energy consumption while enhancing the health and well-being of occupants.

Your 24/7 Safeguard

IonBoxx is a portable bipolar ionization device to kill airborne and surface viruses by discharging 10 billion positive and negative ions per second.

Bipolar ionization is a recognized technology through experiments and tests by many official health authorities.

IonBoxx is proven to kill viruses such as:
- **COVID-19**
- **H1N1 Avian Influenza**
- **Staphylococcus Aureus, and etc.**

It is also designed to reduce allergies and formaldehyde.

Protecting you and your loved ones anytime, anywhere
Ions are discharged continuously

Viruses are surrounded by ion clusters

Ion clusters formed to shatter harmful particles

Additional Benefits

Rapidly eliminates odour at home and in car
